

## TECHNICAL DATA SHEET

### LANDORA BRUSH CLEANER

Landora Brush Cleaner is used for cleaning brushes and tools after painting with water based paint.

Landora Brush Cleaner is a slightly alkaline detergent and degreasing agent which is biologically decomposable. Wear protective gloves and goggles. Applicable for all water based paints.

**Environmental considerations:** The detergent is not to be disposed of in common drains. Surplus paint, the container and any cleaning liquid is to be handed in to your local recycling station.

#### Directions for use

1. Wipe off as much paint as possible from the brushes and tools.
2. Immerse the brushes and tools in Landora Brush Cleaner until the paint is dissolved. Rinse with water. Dried paint can be dissolved if you immerse the brushes in Landora Brush Cleaner for 24 hours. In difficult cases you may have to use a wire brush. Do not treat aluminium surfaces.

The master painter suggests: High quality brushes can be cleaned more often than cheaper brushes, and we therefore recommend these in case you want to keep your brushes for further paint jobs.

#### TO BE STORED AWAY FROM FROST

#### KEEP OUT OF REACH OF CHILDREN

#### The product is available in the following amounts:

1.0 litre
