

TECHNICAL DATA SHEET

LANDORA KNOT VARNISH

Water-based varnish for closing knots in wood panels and strips that are to be painted. Resists the penetration of sap through the paint or varnish layer causing discolouration. May be painted over with water- or solvent-based primer or interior paint.

Directions for use:

Stir thoroughly.

1. Make sure that the surface to be varnished, i.e. The knot, is clean. Remove any resin deposit with a knife or heat gun and cover with filler. Wash off minor deposits with ethanol.
2. Apply at least 2 layers of Landora Knot Varnish.

Tip: Many thin layers are better than a few thick ones to prevent bleed-through.

Drying time: approx. 2 hours. The varnish can be painted over after approx. 24 hours.

Application: Small varnish brush.

Cleaning of tools: Soap and water.

TO BE STORED AWAY FROM FROST

KEEP OUT OF REACH OF CHILDREN

Environmental considerations: Surplus varnish is not to be disposed of in common drains. Surplus varnish, the container and any cleaning liquid is to be handed in to your local recycling station.

The product is available in the following amounts:

0.33L Clear

Produced for the Landora brand.
